

Summary

Degreaser Additives

Schlötter can provide a wide range of degreaser additives to enhance the effect of alkaline cleaning systems. These include the following products:

Additives that enhance cleaning effects

023001	Degreaser Additive SLOTOCLEAN US 11
023011	Degreaser Additive SLOTOCLEAN RV 111
023021	Degreaser Additive SLOTOCLEAN RV 211
023031	Degreaser Additive SLOTOCLEAN RV 311
023041	Degreaser Additive SLOTOCLEAN RV 411
020421	Additive SLOTOCLEAN RV 1131
021361	Additive SLOTOCLEAN RV 1361

Stripper for sealants

020112	Degreaser Additive SLOTOCLEAN VF 500
021011	Degreaser Additive SLOTOCLEAN VF 700

Spray suppressants

080900	Wetting Agent AZN
080904	Wetting Agent AZN 20

Their effects are described briefly in the following pages.

The information in this data sheet is based on laboratory as well as practical experience. Figures quoted for operating limits and replenishment quantities are for guidance. Actual values necessary will depend on the components being plated (material and geometry), their application and plating plant conditions.

Important:

Please read this instruction carefully prior to the use of the process and carefully follow all the parameters that have a direct influence on the operation. We reserve the right to make technical changes. In the interest of safety, please pay attention to the hazard warnings on the labels of the containers. The minimum shelf life of the products is included on the labels and is also available in the appropriate Quality Assurance (QA03).

The current IMDS number of the layer deposited from the process is available on the internet at www.schloetter.com/downloads.

For the storage of chemical products the TRGS 510 must be followed.

If the additives used in this process contain a SVHC-substance, then this will be specified in the corresponding Material Safety Data Sheet, section 15.
